

WHERE TO FIND US

A summer resort for the Portuguese kings and to the major writers of the 19th century, Granja soon became a place known for some of the most famous parties of the century.

On the 20th century, Granja inspired Sophia de Mello Breyner's book "Menina do Mar". Quinta da Camarinha recaptures all the splendour of the old days' parties. At a distance of only 12 km from Porto, Quinta da Camarinha offers you 30.000 square meters of a space ideal for events that require refinement and intimacy.
